

Sentiment Timing
Institutional Pivot Matrix™
Official Software Package

Welcome

Thank you for purchasing the Institutional Pivot Matrix™.

This package includes the complete IPM framework for ThinkorSwim, along with the Buy/Sell Signals module, Lower Study indicator, and Backtest version.

Everything has been organized clearly so you can install and begin using the software immediately.

Step 1 – Open the Software Folder

Navigate to the 02_Software folder.

Inside you will find:

- IPM – White Background Version
- IPM – Dark Background Version
- IPM – Buy/Sell Signals
- IPM – Lower Study Indicator
- IPM – Backtest Version

Choose the version that matches your chart background.

Step 2 – Install Into ThinkorSwim

1. Open ThinkorSwim

2. Navigate to Charts
3. Click Studies
4. Select “Create”
5. Delete the default script
6. Paste the full contents of the selected IPM code file
7. Rename the study at the top to match the file name (for example: IPM_White_Background)
8. Click OK

The Institutional Pivot Matrix™ will now load onto your chart.

Repeat this process for the Buy/Sell Signals, Lower Study Indicator, and Backtest Version.

Step 3 – Review the Quick Start Guide

Before live execution, review the included Quick Start Guide and Installation Guide to ensure proper setup.

Optional

An Advanced Framework folder is included for users who wish to explore the structural construction of the system. This section is not required for installation or use.
