

## Institutional Pivot Matrix™

TradingView Installation Guide

### Overview

This guide walks through the exact installation process for the Institutional Pivot Matrix™ TradingView Edition.

All three Pine Script components must be installed separately.

### Required Files

You should have the following files:

- 01\_IPM\_TV\_Institutional\_Pivot\_Matrix.pine
- 02\_IPM\_TV\_Signals\_Module.pine
- 03\_IPM\_TV\_Lower\_Signal\_Engine.pine

If any file is missing, stop and contact support.

### Installation Process

Repeat the following steps for each file.

#### Step 1 – Open TradingView

1. Log into your TradingView account
2. Open any chart

#### Step 2 – Open Pine Editor

1. Click the **Pine Editor** tab at the bottom of the chart
2. Delete any existing script in the editor

#### Step 3 – Paste Script Code

1. Open one of the IPM .pine files
2. Copy the entire contents

3. Paste into the Pine Editor

#### Step 4 – Rename and Save

1. Rename the script at the top to match the file name  
Example: IPM\_TV\_Institutional\_Pivot\_Matrix
2. Click **Save**
3. Click **Add to Chart**

The script will now load onto your chart.

#### Load Order

Install in this order:

1. Institutional Pivot Matrix
2. Signals Module
3. Lower Signal Engine

#### Common Issues

If the script does not load:

- Ensure the full code was copied
- Confirm no extra characters were added
- Verify your TradingView plan supports custom scripts

If errors persist, contact support.
